 - EXTENDED TREADLIFE
 - QUIET RIDE

 YOKOHAMA

LEGENDARY PERFORMANCE

Built upon the legacy of the A008, AVS Intermediate and the AVS Sport, Yokohama is proud to introduce the all-new ADVAN Apex. An ultra-high performance tire that represents the culmination of decades of performance innovation from our heritage brands. The ADVAN Apex is built for customers who understand the value of true performance upgrades.

3-1 CIRCUMFERENTIAL GROOVES

Three inside grooves enhance wet performance while a narrow outside groove dissipates heat generated by high lateral loads for optimal dry performance.

SOLID CENTER RIB

Uninterrupted center rib enhances high speed stability.

ROUNDED RIB DESIGN

Micro-silica compound and rounded ribs profile optimize contact pressure with the road to reduce uneven wear.

TREAD DESIGN

Optimized groove angles minimize road noise for a more comfortable, quiet ride.

COMPOUND AND TREAD DESIGN

High-grade micro silica in a wide outside rib block devoid of lateral grooves, creates near seamless contact with the road for maximum cornering performance.
